Ebb & Flow: Dialogues between art and water

Ebb & Flow is a 6-week residency based on the premise that Southern Louisiana can be seen as a microcosm of the global environment, manifesting both the challenges and possibilities inherent in human interaction with the urban and natural ecosystems. We ask artists to describe in detail how the region will affect their work, to propose a public component to their residency and to suggest ways in which they will engage with the local community.

DATES Artists may apply for their first, second, third & fourth choice of 6-week residency dates from the following:
September 26 – November 5, 2011; November 8 – December 19, 2011; January 5 – February 15, 2012;
February 24 – April 5, 2012.

DEADLINE FOR SUBMISSIONS Postmark by March 1, 2011, notification by April 30, 2011.

ARTIST ELIGIBILITY Visual, musician/composing, performance, literary, new media, and interdisciplinary artists.
Both established and emerging artists are encouraged to apply, but a rigorous work ethic and demonstrated commitment to environmental issues are expected. Students are not eligible.

SELECTION PROCESS A multidisciplinary jury will judge proposals on the following criteria:

- The creativeness and integrity of the proposal
- Incorporation of the arts and other disciplines
- Evidence of previous exploration of environmental topics
- The proposal's public component and its depth of engagement with the community
- Creative use of ASITW resources including its natural environment and proximity to the Mississippi River
- Please note that the fragile environment poses restrictions to what can happen on site. We ask that proposals moderate the number of visitors, penetration of the woods, and use of natural found materials.

FINANCIAL SUPPORT Recipients will be given \$750 as a stipend and \$250 towards materials

ASITW provides full room and board including food, utilities for living and studio space. Residents are expected to cover personal living expenses, additional materials and supplies, and any other expenses relating to the cost of producing work incurred while in the program. Travel and shipping expenses to and from ASITW for the residency are also the responsibility of the artist.

A Studio in the Woods, a program of Tulane University, located in 7.66 forested acres on the Mississippi River in New Orleans, is dedicated to preserving the endangered bottomland hardwood forest and providing within it a peaceful retreat where visual, literary and performing artists can work uninterrupted. One of the few live-in artists' retreat in the Deep South, A Studio in the Woods fosters both environmental preservation and the creative work of all artists.
